

LININGTEC

Innovative refractories for boilers

Lining Tec Oy strengthens its expertise and personnel

We at Lining Tec want to continue to grow and strengthen our expertise as a forerunner in expert services for refractory linings for power boilers. From 1.2.2023, Mika Niemi has started as the company's CEO. Mika has long and diverse experience in different operating environments and operators in industry.

Jorma Pitkänen will continue to work for the company as CFB refractory lining specialist and technical director. The CFB refractory lining inspector and technical expert is Pasi Viemerö.

"It's great to be part of Lining Tec's expert team. We are excited and happy to work together to develop and expand our service offering to our current and future customers in Europe, Asia and South America," says Mika Niemi, CEO of Lining Tec Oy.

Sincerely,

Jorma Pitkänen
